Crescita e felicità

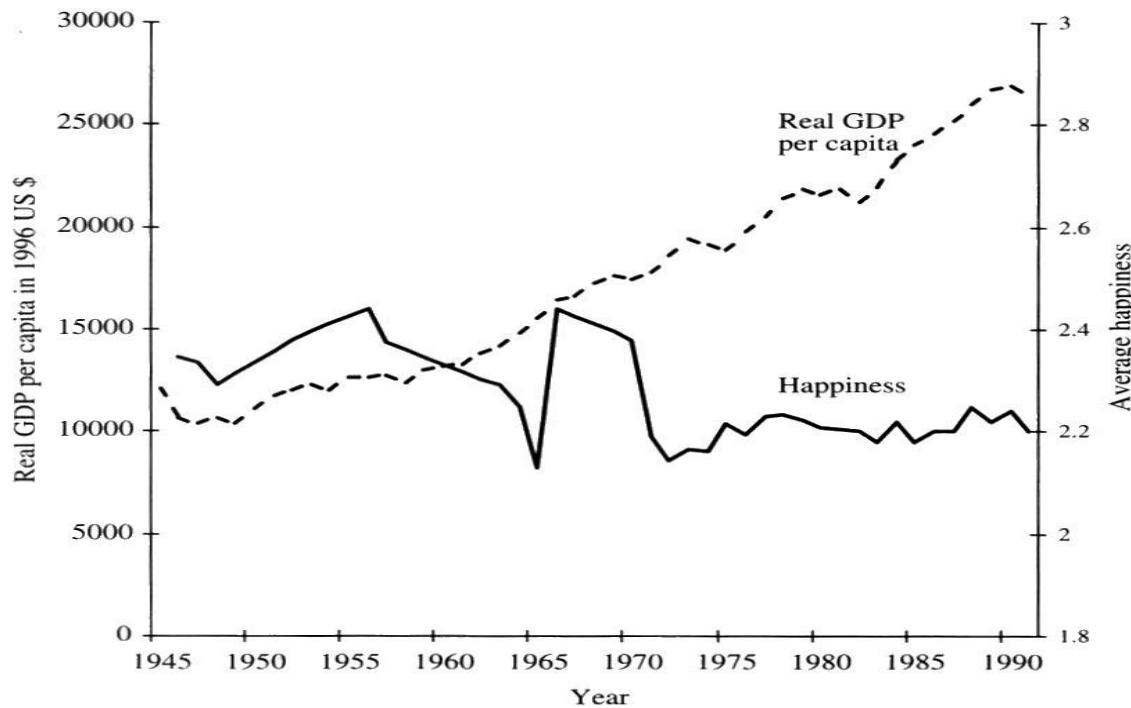

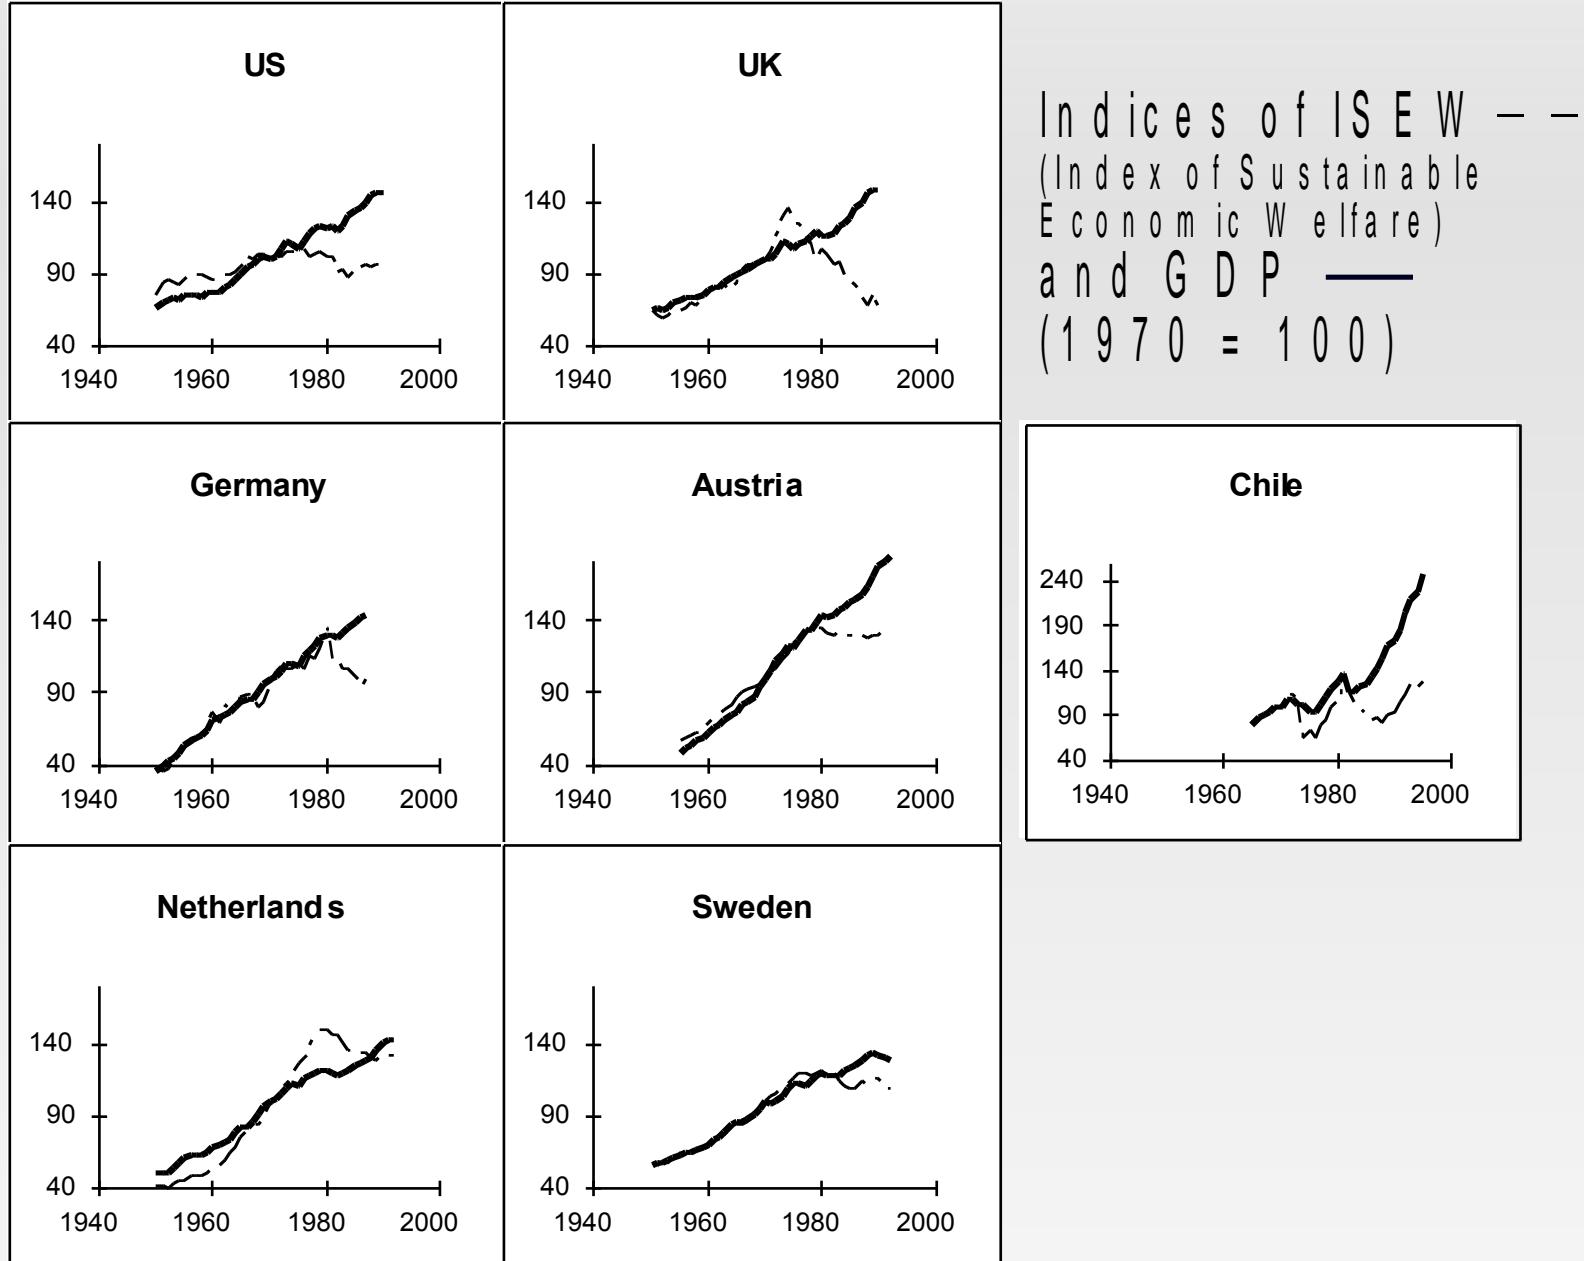

Figure 1. Happiness and income per capita in the United States, 1946–91.
Data from World Database of Happiness, Bureau of Economic Analysis of the
U.S. Department of Commerce and U.S. Bureau of the Census.

Sistemi fisico-biologici e sistemi sociali

“I sistemi fisici e biologici reagiscono rispettivamente a “forze” e a “segnali”
(D. Lane, 2008)

- I Sistemi sociali, diversamente dai sistemi fisici e biologici, sono capaci di “negoziare significati”
- I sistemi sociali reagiscono a ciò che può essere definito un *Immaginario condiviso*

Decolonizzare l'immaginario

La condizione post-moderna

La condizione post-moderna è caratterizzata da:

- La fine delle grandi narrazioni (Lyotard, 1979)
- L'emergere di una società liquida (Bauman)
- Un immaginario fluido e frammentato

Complessità e rendimenti decrescenti
