PROVISIONAL PROGRAMME

Thursday 10th of November 2005, Aula at the Old Lutheran Church	
Time	AULA at Old Lutheran Church
16:00 – 16:30	Registration
16:30 – 16:45	Welcome John Albarran & Jos Latour
16:45 – 17:15	Megatrends in Europe and the consequences for critical care nursing Keynote Speaker: Adjiedj Bakas, Netherlands
17:15 – 17:45	Critical Care Nursing in Europe: Working Together, Achieving More Wouter de Graaf, Netherlands
17:45	Welcome Reception

Friday, 11th of November 2005, The Meervaart Congress Centre	
Time	RED HALL
09:15 – 09:30	Welcome John Albarran & Jos Latour
09:30 – 10:00	Critical Care Nursing across the life-continuum: How do we respond to the challenges? Rósa Thorsteinsdóttir, Iceland
10:00 – 10:45	Family centred care across the life continuum Prof. Ingegerd Bergbom Sweden
10:45 – 11:15	Coffee Break, Exhibition & Posters

Time	RED HALL	BLUE HALL Paediatric Critical Care	ROOM 2	ROOM 6 + 7	ROOM 5
Sessions	Coronary Care Nursing	Transport and guidelines	Practice Development	Relatives and Patients in ICU	Illness and Pain in ICU
11:15 – 11:35	Screening patients for cardiac resynchronisation therapy by a nurse practitioner: A new role for the coronary care nurse Ron Bakker, Netherlands	Paediatric critical care on the road Dirk Danschutter, Belgium	The experience of sleep in the intensive care unit E.M. Gundersen, Norway	Custodians' experiences regarding information given to their child when visiting a nearest being cared for at an adult ICU S. Knutsson, Sweden	Psychobiology of critical illness: synthesizing the evidence to build a framework for nursing E. Papanthanasoglou, Greece
11:35 – 11:55	Education and clinical decision making among coronary care nurses: a comparison between Greece and England N. Bakalis, Greece	How Parents Experience the Transfer from her Children out of the Intensive Care Unit G. Stoffel, Switzerland	Clinical advice in the care of patients with post-operative confusion in the light of three nursing theories: a collaboration between psychiatry and intensive care E.J. Hovstadius, Sweden	Experiences of nurses interacting with foreign-language patients and their relatives in intensive care units F. Luck, Switzerland	To what extent are holistic indices realised in intensive care units? E. Cudak- Banska, Poland
11:55 – 12:15	Exploring paramedics perceptions of initiating thrombolytic therapy for patients with suspected myocardial infarction; a pilot qualitative study H. Cox, UK	Children with severe meningococcal infection: the Dutch consensus guidelines for nursing practice J.W. de Valk, Netherlands	Communication experiences with intubated patients in ICU A. Yava, Turkey	Enduring chaotic suffering: imageries of close relatives confronted with brain death I. Frid, Sweden	Nursing education and organization impact on the evaluation and treatment of acute pain in an emergency department E. Lumini, Italy
12:15 – 12:35	Monitoring for cardiac arrhythmias in patients with acute self poisoning M. Brvar, Slovenia	Paediatric Resuscitation Guidelines H. Toensfeuerborn, Germany	Potential for Hb and nHb organ donation: a retrospective medical record review on 7 critical care units in a 1900 bed hospital B. Quaghebeur, Belgium	The quality of life after ICU hospitalization: our experience A. Bencivinni, Italy	Sedation: Intensive care patients' experience of analgesic and sedative therapy over time A. Svendsrud, Norway
12:45 – 14:00	Lunch, Exhibition & Posters				

Time	RED HALL	BLUE HALL Paediatric Critical Care	ROOM 2	ROOM 6 + 7	ROOM 5
Sessions	Technology in Critical Care	Paediatric Liver transplant care and Chronic Illness	International Research	Music Therapy and Survival in the ICU	Educational Programmes
14:00 – 14:20	Application of technology across the life continuum Karl Øyri, Norway	Admitting post-operative paediatric liver transplant patients to the ICU S. Egman, Italy	Research platforms in the Nordic Association for Intensive Care Nursing Research (NOFI) Prof. I. Bergbom, Sweden	Music therapy - a complementary treatment: For mechanically ventilated intensive care patients S. Almerud, Sweden	Problem based learning in critical care A. Evans, UK
14:20 – 14:40	Designing for the intensive care nursing process M. Melles, Netherlands	Outcome of paediatric liver transplant J. Goorhuis, Netherlands	Association between professional satisfaction and self esteem in Hellenic intensive care nurses M. Karanikola, Greece	The effectiveness of music as an intervention to reduce acute pain and anxiety in hospitalised adults: a systematic review and meta analysis G. Bloo, Netherlands	From knowledge to competence within intensive care nursing M. Lindblad-Fridh, Sweden
14:40 – 15:00	Caring in a technological world E. Laerkner, Denmark	Paediatric liver transplant care in PICU L. Hagebeek, Netherlands	Comparative evaluation of QOL in haemodialysis and kidney transplantation patients S. Fayyazi, Iran	Use of music therapy in early brain injured patients? R. Meglitorin, Italy	Acute care teaching in the undergraduate nursing curriculum J. McGaughey, UK
15:00 – 15:20	Application of technologies in patient with temporary external ventricular circulation: nursing assessment using a critical care model L. Fini, Italy	Quality of Care for the chronically ill child in the PICU D. Kwast-Hoekstra, Netherlands	Development of a database for Danish Critical Care Nurses I. Egerod, Denmark	Physical trauma survivors recall from the Intensive care unit M.L. Ringdal, Sweden	Technical, interpersonal and critical thinking competency assessment: a systematic approach S. Giammona, Italy
15:30 – 16:00	Coffee Break, Exhibition & Posters				

Time	RED HALL	BLUE HALL Paediatric Critical Care	ROOM 2	ROOM 6 + 7	ROOM 5
Sessions	Critical Care in Disaster Areas 16:00 – 17:00	Sedation in PICU	Workshop Publications 16:00 – 17:00	Tutorial Internet Questions and Answers 16:00 – 17:00	16:00 – 17:00
16:00 – 16:20	The Tsunami experience in Aceh Dirk Danschutter, Belgium	Withdrawal symptoms of sedation and analgesics in PICU Irwin Ista, Netherlands	Writing for publication John W. Albarran, UK	Internet possibilities for Critical Care Nurses: the new EFCCNa website Karl Øyri, Norway	Meeting of the Dutch ICU nurse scientists Moderator: G Bloo, Netherlands
16:20 – 16:40		BIS monitoring to improve sedation strategies in PICU Irene Harth, Germany			
16:40 – 17:00		Assessing depth of sedation on the PICU using Bispectral index and the abbreviated Comfort Scale: a correlation research L. Bakker, Netherlands			
19:30	Social Evening				

Saturday, 12th of November 2005, The Meervaart Congress Centre

Time	RED HALL	BLUE HALL Neonatal Critical Care	ROOM 2	ROOM 6 + 7	ROOM 5
09:00 – 09:40	Blow up the balloon: Can the lung survive ARDS? Marc van Heerde, Netherlands	NICU treatment: when do we start and what are the consequences? Prof. Hans van Goudoever, Netherlands			
09:45 – 10:15	Critical care competencies: Myth or reality? Prof. Julie Scholes, UK	Ethical considerations in NICU Janny de Vos, Netherlands			
10:15 – 10:45	Coffee Break, Exhibition & Posters				
Sessions	Patients' Experiences in ICU	Pain, Comfort & Complex Care	Staff Support and Developing the Workforce	Critical Care Outreach	Evidence Base Practice and Research
10:45 – 11:05	Mechanic ventilator treatment: patient experiences A. Yava, Turkey	Neonatal pain management and its implication for the clinical setting Eva Gignacco, Switzerland	A nation-wide project for the revision of the Belgian Nursing Minimum Dataset: from concept to implementation O. Thinon, Belgium	Developing a multi disciplinary critical care outreach service within a single specialist NHS hospital P. Goodall, UK	Introduction of an ICU glucose protocol using planned change M.L. Luiking-Martin, Netherlands
11:05 – 11:25	Patient diaries in intensive care W. Robson, UK	Implementation of the COMFORT [®] behavior-scale for assessing pain in infants and children in ICUs P. van Deventer-Brunner, Netherlands	Successful learning in the PICU: Using a student centred tool to guide nurse students I. Dokter, Netherlands	The experiences of registered nurses caring for critically ill patients within a general ward setting J. James, UK	Respiratory waveforms in patients with obstructive pulmonary disease M. Stafilaraki, Greece
11:25 – 11:45	Experiences of nurses interacting with foreign-language patients and their relatives in ICUs F. Luck, UK	The effect of deep tactile-kinesthetic stimulation method on weight gain of low birth weight infants M. Golchin, Iran	Nurse driven development approach to newly-hired critical care nurses L. Hernandez, Belgium	Implementing a 24/7-MET (Medical Emergency Team) at the Karolinska University Hospital, Solna, Sweden K. Karlsson, Sweden	Evidence-Based Practice among Danish critical care nurses I. Egerod, Denmark
11:45 – 12:05	Testing the ability of nurses to identify the needs of the relatives of ICU patients F. Moggia, Italy	ECMO: organising complex care t.b.a.	Accreditation and its positive impact in the critical care units of American Hospital L.E. Mikalauskas, Turkey	When should we stop monitoring our critically ill patients? C. Plowright, UK	The complexity of evaluating nurse-directed weaning B. Blackwood, UK
12:15 – 13:30	Lunch, Exhibition & Posters				

Time	RED HALL	BLUE HALL Neonatal Critical Care	ROOM 2	ROOM 6 + 7	ROOM 5	
Sessions	NUTRICIA Sponsored Session 13:30 – 15:00	Infection Prevention & NIDCAP	Ventilation Strategies	Family Centred Care and Transfer	Workshop Evidence-based Nursing 13:30 – 15:00	
13:30 – 13:50	The EfCCNa Nutrition Survey Prof. Paul Fulbrook, UK/Australia	Nosocomial infections in the NICU Onno Helder, Netherlands	Developing a research based plan of care for patients who undergo prolonged ventilation post cardiac surgery K.M. Gough, UK	Spouses experiences of their partner's being cared for in an intensive care unit Å. Engström, Sweden	Evidence-Based Nursing in critical care settings Erik de Laat, Netherlands	
13:50 – 14:10			NIDCAP: a success story? Three key-speakers t.b.a.	Health care professionals' attitudes of best practice in intensive care units by focusing on the use of a weaning protocol B. Hansen, Norway		The anxiety level of the patients' family having medical treatment and mechanical ventilation support by the ICU Prof. D. Selimen, Turkey
14:10 – 14:30				The impact of nurse-directed protocolised-weaning on nursing practice in the UK B. Blackwood, UK		The effectiveness of performance feedback in improving professional practice L. Harrison, UK
14:30 – 14:50				The development of guidelines for nursing patients in a prone position in an Australian ICU R. Vanderheide, Australia		The development of an inter/intra hospital transfer course for the critically ill adult patient in south east England. T. Collins, UK
15:00 – 15:30	Coffee Break, Exhibition & Posters					

Time	RED HALL	BLUE HALL Neonatal Critical Care	ROOM 2	ROOM 6 + 7	ROOM 5
Sessions	Sepsis in Critical Care	Workshop Interactive Learning 15:30 – 16:30	Traumatology	Family and Resuscitation	
15:30 – 15:50	Managing severe sepsis across the life continuum Peter Pickkers, Netherlands	NICU and PICU training and education: an interactive workshop O. Frauenfelder and S. Hart, Netherlands	Surviving the intensive care department after a trauma: a survey of the perception of trauma patients during the intensive care period G.J.A. Bloo, Netherlands	Critical care nurses' experience and attitudes toward family presence during CPR: the EfCCNa Study Prof Paul Fulbrook, UK/Australia	
15:50 – 16:10			Nursing care for patients with multiple trauma A. Curcuruto, Italy	Family presence during CPR: A study of the experiences and opinions of Turkish critical care nurses A. Badir, Turkey	
16:10 – 16:30	What nurses can do to support the Surviving Sepsis Campaign? W. Robson, UK		Centralization criteria for major trauma: validity in the attribution of the triage code and for the activation of the trauma team in an urban II level emergency department S. Bambi Italy	The Family Presence at resuscitation: ReAD CaRe Survey - an Italian perspective G. Becattini, Italy	
Time	RED HALL				
16:35 – 16:45	EfCCNa moving forward Wouter de Graaf, Netherlands				
16:45	Closing Remarks & Farewell Party John Albarran & Jos Latour				

2nd EfCCNa Congress
 10th – 12th of November 2005
 Amsterdam, The Netherlands
