FINAL ANNOUNCEMENT

2nd Congress of the European federation of Critical Care Nursing associations

**Delivering critical care across the lifespan:
meeting the challenges**

**10th - 12th of November 2005
Amsterdam, The Netherlands**

www.efccna2005.org

INVITATION

Dear colleagues and friends,

On behalf of the European federation of Critical Care Nursing associations (EfCCNa) we have great pleasure of inviting you to attend its second congress on advances and developments in the field of critical care nursing. The congress will be held in the Meervaart congress centre, Amsterdam, The Netherlands, from 10th - 12th of November 2005.

The congress theme, *delivering critical care across the lifespan: meeting the challenges* aims to address the key issues for critical care nurses engaged in caring for patients across the continuum of life, starting with birth through to the elderly. Additionally, the content is sure to stimulate and provoke debate between nurses about how to best respond to the challenges of delivering individualised, high-quality, evidence based care to a broad range of age groups.

The quality of the scientific programme coupled with distinctive ambience, culture and vibrancy of the city of Amsterdam are all the necessary ingredients for a truly memorable experience.

We are looking forward to welcoming you in Amsterdam.

Jos Latour, Chairman
International Organising Committee

John W. Albarran, Chairman
